## AUTUMNAL MARATHON

It's time to support your radio!

Yes indeed, its time for the Fall Marathon, and we are here once again stressing the importance of your support.

For the nine days from October 30 through November 7th we are going to have special programming each night (see inside guide), and you'll hear a lot of familiar, and not so familiar, voices encouraging you to step forward via your telephone, and put your money where your ears are. It will be good time for you to tell your friends about the station, get them to tune in, and we'll work on their wallets.

KRAB is noncommercial independent public radio. It has no institutional affiliation, unlike most of the so-called "public" radio stations that are in fact tied to institutions, schools, colleges, universities, etc. KRAB receives no funding from institutional sugar daddies; while it gets a tax break (being non-profit means mostly tax-exempt), it receives no tax dollars.

The station relies on the support of its listeners, and in this way it is assured that it will be both free from the controlling interests and restrictions that single source funding would impose, and that it will be responsive to the diverse needs that are waiting to be met by a truly open radio station.

Clearly this places a burden on the listeners: You have to pay for what you hear. And in the most direct sense, for our ability to produce exciting and worthwhile programming depends on your willingness to contribute.

On November 2nd many of you will be participating in the Democratic Process. To those of you not overly cynical I would like to suggest that KRAB, too, is a place that requires your exercising your option in order to survive. It will only be as good as you will help it to be.

Freedom of the press is in the end dependent upon the willingness of many to keep a channel of expression open to those other people with ideas and opinions very different from those held by the prevailing majority. It is sad that the "many" with tolerance and open-ness have, in the past, been so few. Let us hope that, beginning with this marathon, our number will increase, and our effectiveness as a vehicle of communication will improve as the result.

I could go on like this at considerable length, but I know you'll be hearing a lot of people this week saying much the same thing, so I'll constrain myself to one last comment. In recent years as "public" broadcasting has expanded, more and more tax supported stations have taken to asking for listener support to further fatten their already burgeoning budgets. While they are certainly free to engage in such activities, it impresses me as just a little unethical, if not sinister, to use my and your tax dollars to pay for stodgy programming, use it to match federal grants, and then turn around and ask the listeners to fork over more. KRAB is not that way, and barring a radical reorganization, will never be supported in an substantial amount by tax monies. It is independent, independent from private and public or governmental controls and influence, and while we try as we might to acquire grants for special projects, we believe firmly in the concepts of listener supported radio espoused by Lew Hill some 30 years ago.

And so we ask you to join us. If you are not already a subscriber, then please make that check out now. If you are a subscriber, how about renewing, or extending your subscription, or buying a gift for a friend, or just plain donating what you can spare.

## THE PRESIDENT HE IS DEAD

NOVEMBER 22nd

A two and one-half hour special on the anniversary of the assassination of John F. Kennedy in which the "conspiracy vs. lone gunman" theories are re-examined.

7:30 PM A recording of Mark Lane, one of the most outspoken critics of the Warren Commission Report speaking at Bellevue Community College, Oct 12.

9:00 "Who's telling the truth?" Rich Bennett and Bill Haynes, live at KRAB. Bennett has devised a "strain analyzer" that detects variations in voice characteristics, and when used on Hugh McDonald (author of Appointment in Dallas) revealed that McDonald is convinced of the truth of his claim that the assassination was a conspiracy. Bill Haynes is the son of Lt. Col. Hal Haynes, Jr., Assistant Chief of Security under John Kennedy. The program is hosted by Jef Jaisun.

As more children are conceived in the Fall months than during any other season, volunteer Libby Sinclair thought that November would be a good time to begin airing highlights from the Childbirth Education Association's International Conference, which was held in Seattle last June. The programs are scattered throughout this guide, and more will be broadcast in coming months. Some of them are available in printed transcripts, and others on cassette. For more information write the station.

## ABOUT KRAB

.....a noncommercial educational radio station licensed to the Jack Straw Memorial Foundation, a non-profit corporation. The station broadcasts at an effective radiated power of 45,000 watts, on a frequency of 107.7 mHz, FM. And as of this month, in Stereo. Offices and studios are located at 1406 Harvard, Seattle, Washington 98122. The phone number is 325-5110.

Listeners who contribute \$25 or more each year become subscribers, and are entitled to receive the monthly program guide, of which this is one. Checks should be made out to KRAB, and all donations are tax-deductible. KRAB's major source of financial support is from its listeners: Listener sponsored radio needs your help.

In recent years certain words have come to be associated with radio stations like KRAB: "access", "community", "public", "alternative", etc. We abhor such cliches. They degrade the concept, reducing it to a conceptual framework small enough and shaped to fit in pigeon hole like minds. KRAB, we hope, will always be more than any of those phrases. Instead of devoting our time to any single, and ingrown, "community", KRAB will continue to provide worthwhile informative and enlightening programming that we hope will be as meaningful for listeners to hear as it is for producers to produce. The programming will not be given to entertaining any single self-aggrandizing group or aimed at an amorphous mass, but will be designed to reach and communicate, at different times, with a wide variety of people with varying backgrounds, opinions and interests.

Early in the formation of KRAB it was argued that for a radio station to be truly responsive to the needs of that part of "the community" not favored with access to, or programming produced by, commercial media, that station must, among other things, be operated by a small, dedicated, low paid staff whose goal is to encourage and support the activities of volunteers in producing the actual programming. This continues to be the way of KRAB. There are many things things for volunteers to do at KRAB, ranging from recording, board operation and production to vital support activities such as addressing, envelope stuffing, and cleaning. If you are interested give us a call, 325-5110.

Anyone with opinions in disagreement with those expressed on any program broadcast on KRAB is invited to contact the station for time to express their views.

Occasionally KRAB will trade mailing lists with other non-profit institutions. If you do not want your name traded, call the station and tell us so.

Lovecraft story THE RATS IN THE WALLS, some of the best from Arch Obler's LIGHTS OUT radio program from the late thirties, short stories by Ambrose Bierce, Robert Lewis Stevenson, and Theophile Gautier, and, finally the most unexpected, unpredicted, unexplained grunts, gags, giggles, screeches, and groans from beyond the pale.

3:30 PM THE PROMISCUOUS LISTENER: SPECIAL II  
Paul Stanbery makes East meet West when he celebrates the upcoming November 7 (Gregorian) anniversary of the October (Julian) Revolution by playing Prokofiev's incredibly secular "Cantata for the 20th Anniversary of the October Revolution", perhaps the greatest piece of 20th century choral music and a work that was forbidden in the Soviet Union until the mid-sixties. This contrasts with the work that Stalin's boys approved, harmless, "pretty" Salute of a year later. Then, for Thanksgiving, we hear Miklos Rozsa's superb suite from his Ainsworth Psalter-based Plymouth Adventure film score and also what is probably a West Coast radio premiere of a pseudo-Baroque cantata by American Randall Thompson, The Ode To The Virginian Voyage.

5:30 JAWBREAKER  
Peggy DeLeers reading from Kipling's The Jungle Books, stories of Mowgli, the man-cub, and his life in the jungle. Chapter 3, "Tiger! Tiger!"

6:00 REPORTING ON THE REPORTERS  
Tonight KRAB's crew of volunteers and staff will observe election night from a slightly different perspective. What are reporters up to, really? Is election night suspense warranted? Does it exist? Why does the media behave as if the outcome will be a surprise? Which reporter is best dressed? Worst dressed? Who cares? These questions, and others created especially for the evening, will be neatly side stepped as a team of KRAB ears nose into various campaign headquarters, and report on the frequently bizarre behavior of candidates, campaigners, and the media. Hosted variously by Greg Palmer (producer of "Government Inspected"), Kathy Cain, Jim Lobe, and the International News team. If you don't understand what international news may have to do with the election, you'll be in for a real surprise.

If you can't listen Saturdays, here's your chance. Jack Flanders, lately of the Fourth Tower of Inverness, has been investigating prehistoric works of engineering such as Stonehenge, Woodhenge, and The Great Pyramid. Jack believes these ancient sites were once used to control celestial and terrestrial energy---that once there existed a knowledge of natural magic that has been lost to modern man. So, Jack heads for Morocco, where, he believes, there may be a gateway which will open into an invisible world of another dimension. This radio serial will be heard every Thursday night after the News, at about 10:30.

# FRIDAY 5

## Guy Fawkes Day:

"Though there be no appearance of any stir, yet I say they shall receive a terrible blow this parliament, and yet they shall not see who hurts them." Thus was the Gunpowder Plot exposed in 1605, and Guy Fawkes himself discovered in the vaults under the house of lords, having been hired for the purpose of preparing a number of barrels of gunpowder for firing the next day. Every year on this day bonfires are set on hill tops and firecrackers exploded, as a reminder to those in power of their mortality.
